

You can probably do anything; but you can't do everything.

This is where we come in...

“Chief Advocate” – we can help you with strategizing, brand positioning and inspiration. It's like having your own CIO (Chief for Investigating Opportunities) who is off the payroll. We will help you see your business through the eyes of your consumer and investors.

You tell us where to focus the time; or just let our investigative instincts take over. All minutes and activities are documented for your review and tax purposes.

**Chief Advocate for Your Business... [\$2500]*

“Raising Capital” – we can help you and your business lay the foundation for a potential financing with private investors and/or lenders.

(407) 772-1135 or (561) 596-5067
